NF EPOXY

TERMS AND CONDITIONS

Business location: Kempton Park, Gauteng, South Africa

Learn It. Create It. Take It Home!

These Terms and Conditions apply to all NF Epoxy workshops, epoxy flooring and countertop services, workshop vouchers, appointments, quotations and related services.

By making a booking, paying a deposit or invoice, purchasing a voucher, or accepting a quotation, the customer acknowledges and agrees to the applicable Terms and Conditions.

1. GENERAL TERMS AND CONDITIONS

1.1 Business Premises and Appointments

NF Epoxy operates from a residential property in Kempton Park and is not a walk-in retail store or public showroom.

All workshops, meetings, consultations, meet-and-greet sessions, collections and visits must be arranged and confirmed in advance.

No unannounced visits will be accepted.

Customers must arrive at the agreed date and time. Late arrivals may result in reduced consultation or workshop time.

The premises are private property. Visitors must comply with reasonable safety and security requirements.

NF Epoxy reserves the right to reschedule an appointment where reasonably necessary, with communication to the customer.

1.2 Payments and Bookings

All prices, payment arrangements and applicable deposits will be communicated before a booking or service is confirmed.

A booking is only secured once the required deposit or full payment has been received and confirmed by NF Epoxy.

Proof of payment must be provided where requested.

Unless otherwise agreed in writing, outstanding balances must be settled before the workshop or commencement of the agreed service.

Customers must ensure that payments are made to the correct account and that payment references are supplied where required.

NF Epoxy does not accept payment on delivery unless expressly agreed in writing beforehand.

Prices and quotations are subject to the stated validity period. Changes to the agreed scope of work may affect the final price.

1.3 Quotations and Additional Work

Quotations are based on the information, measurements, photographs and site conditions available when the quotation is prepared.

Customers must disclose all relevant information that could affect the work.

Any additional work, materials or services not included in the original quotation will be discussed and approved before proceeding.

A quotation does not constitute a confirmed booking until accepted and the required payment arrangements have been fulfilled.

1.4 Cancellations, Refunds and Rescheduling

Customers must notify NF Epoxy as soon as possible if they need to cancel or reschedule.

Deposits and cancellation charges will be handled in accordance with the agreed booking terms and applicable South African consumer law.

Where cancellation results in reasonable, demonstrable costs already incurred or non-recoverable commitments, these may be considered when determining any refund, where legally permitted.

No term in these conditions excludes any refund, cancellation or other right that a customer is entitled to under applicable law.

NF Epoxy will communicate any necessary changes to a booking or service as soon as reasonably possible.

1.5 Customer Conduct and Safety

Customers must behave respectfully and follow all reasonable safety instructions.

Anyone who behaves abusively, disruptively or in a manner that creates a safety risk may be asked to leave.

Children must be supervised by a responsible adult. Participation by minors in practical activities requires prior approval and appropriate supervision.

Customers must disclose relevant allergies or sensitivities to workshop materials before participating.

Epoxy products may cause skin or eye irritation and allergic reactions. Appropriate protective equipment and safe handling procedures must be followed.

1.6 Complaints and Consumer Rights

Any concerns about a product, workshop or completed service should be reported to NF Epoxy as soon as reasonably possible, with photographs or other supporting information where applicable.

NF Epoxy will assess complaints fairly and in accordance with the applicable terms, product specifications and South African law.

Nothing in these Terms and Conditions limits any non-excludable rights or remedies available to consumers under applicable legislation, including the Consumer Protection Act 68 of 2008 where applicable.

2. EPOXY WORKSHOPS

2.1 Workshop Bookings

All workshops must be booked and paid for in advance.

Workshop dates, times, prices, inclusions and available spaces will be communicated in the relevant advertisement or booking confirmation.

A deposit or full payment, as specified for the particular workshop, is required to secure a place.

Spaces are limited. A place is not guaranteed until the booking has been confirmed by NF Epoxy.

Customers are responsible for ensuring that they book the correct workshop and understand what is included in the advertised price.

2.2 Bringing Friends or Family

Workshops are intended for registered participants only.

Friends, family members or other accompanying persons may only attend if the relevant advertisement or NF Epoxy expressly states that accompanying guests are permitted.

An accompanying person may not participate in practical activities unless registered and authorised to do so.

NF Epoxy must approve any additional attendee in advance.

2.3 Practical Participation

NF Epoxy workshops are hands-on learning experiences involving demonstrations, instruction and supervised practical work.

Participants are expected to follow the instructions and safety procedures provided by the instructor.

Participants are responsible for handling tools and materials carefully and using protective equipment as instructed.

The level of assistance provided will depend on the workshop, the project and the participant's individual needs.

Epoxy curing times may extend beyond the workshop duration. Certain projects may need to remain at the premises until they are safe and ready for collection, where applicable.

Participants must arrange collection of any project left at the premises within the timeframe agreed with NF Epoxy.

2.4 Workshop Projects and Results

Participants may experience differences in colour, finish, texture, bubbles, curing, appearance and final results.

These differences may result from mixing, environmental conditions, materials, techniques or individual handling.

NF Epoxy will provide guidance and supervision but cannot guarantee identical results for every participant.

Participants are responsible for following the instructions provided and taking reasonable care of their projects after the workshop.

Where a workshop includes a specific project, materials or a finished item, the exact inclusions will be stated in the advertisement or booking confirmation.

2.5 Meals and Refreshments

Meals, snacks and beverages are included only where expressly stated in the workshop advertisement or booking confirmation.

Participants must advise NF Epoxy of relevant dietary requirements or allergies before the workshop. Accommodation cannot be guaranteed in every case.

2.6 Workshop Cancellations and Absence

Customers should provide as much notice as possible when requesting a cancellation or rescheduling.

A participant who fails to attend without prior notice may lose the reserved place and may not automatically qualify for a refund or replacement booking, subject to applicable law and the circumstances.

Transfers to another workshop date are subject to availability and written confirmation from NF Epoxy.

If NF Epoxy cancels a workshop, customers will be informed and offered an appropriate alternative, such as rescheduling or a refund where applicable.

Any refund or cancellation arrangement must comply with applicable consumer law.

2.7 Photography and Marketing

NF Epoxy may wish to photograph completed projects or workshop activities for marketing purposes.

Customers' identifiable photographs or videos will only be used for promotional purposes with their consent.

A participant may decline marketing photography without being excluded from the workshop.

3. EPOXY FLOORING AND COUNTERTOPS

3.1 Scope of Services

NF Epoxy provides epoxy application services for flooring and countertops, as agreed in the accepted quotation.

The quotation will specify the work included, the agreed price, materials and any relevant exclusions.

Unless expressly included in writing, floor preparation, repairs, levelling, grinding, moisture treatment, removal of existing coatings, furniture removal and other preparatory work are excluded.

3.2 Floor Preparation Is the Customer's Responsibility

NF Epoxy does not do floor preparation.

The customer is responsible for ensuring that the floor is properly prepared before the agreed application date.

The surface must be level, clean, dry, sound and free from dust, grease, oil, loose material, contaminants and other substances that could interfere with adhesion.

Cracks, holes, uneven areas, loose coatings and other defects must be appropriately repaired before application.

The customer must ensure that any moisture or rising-damp problems have been properly addressed.

Epoxy should not be applied to an unsuitable surface. If the floor is not ready, NF Epoxy may postpone or decline to proceed until the issue has been addressed.

Where additional visits, waiting time or rescheduling costs arise because the customer has not prepared the surface as agreed, reasonable additional charges may apply if communicated and agreed in advance, subject to applicable law.

3.3 Furniture and Access to the Work Area

The entire surface area to be coated must be clean, clear and free of furniture and personal belongings before NF Epoxy arrives.

NF Epoxy does not move, lift, remove or store furniture, appliances, equipment or other items unless expressly agreed in writing beforehand.

The customer is responsible for removing items from the work area and ensuring that the team has safe and unobstructed access.

If the area is not cleared, NF Epoxy may postpone the work or proceed only with the accessible area if this is technically suitable and agreed.

Any additional costs caused by delays or an unprepared work area will be discussed with the customer in advance.

3.4 Site Inspection and Surface Conditions

The customer must provide accurate information about the existing surface, previous coatings, moisture issues, repairs and other known defects.

Where a site inspection is undertaken, it does not necessarily identify every hidden defect or moisture problem.

Existing cracks, movement, dampness, weak substrates, contamination or inadequate preparation may affect the appearance, adhesion and durability of the epoxy coating.

NF Epoxy cannot guarantee a satisfactory result where the underlying surface is unsuitable or the agreed preparation requirements have not been met.

If NF Epoxy identifies a material safety or technical concern before or during application, the work may be stopped until the concern is resolved.

3.5 Quotations, Measurements and Pricing

Prices are based on the agreed area, specified coating system and scope of work.

The customer must provide accurate measurements and access for any agreed inspection.

Any difference between the quoted and actual area, or any additional work required, may affect the price.

Additional work will be discussed with the customer and approved before it is undertaken.

The customer may not assume that repairs, levelling, waterproofing, furniture removal or other unlisted services are included.

3.6 Colour, Finish and Appearance

Epoxy finishes may vary slightly due to lighting, substrate conditions, pigments, mixing, application techniques, curing conditions and the nature of the selected design.

Metallic, marble and decorative effects are individually created and may not be identical to photographs, samples or previous projects.

Samples and reference images are indicative of the intended appearance and do not guarantee an exact match.

Customers must approve the selected colour, design and relevant specifications before application begins.

3.7 Curing, Access and Aftercare

Epoxy requires appropriate curing time. The customer must follow NF Epoxy's instructions regarding foot traffic, furniture placement, cleaning and use of the surface.

The coated area must be protected from dust, water, pets, traffic and other interference during the specified curing period.

Customers must not place furniture, heavy items or appliances on the surface before NF Epoxy advises that it is suitable.

Damage caused by premature use, failure to follow aftercare instructions, impact, unsuitable cleaning chemicals or misuse may not be covered by any applicable workmanship warranty.

Any specific product maintenance or care instructions supplied by NF Epoxy must be followed.

3.8 Workmanship and Defects

Any applicable workmanship warranty, its duration and its scope will be stated in the quotation or written confirmation.

A workmanship warranty, where offered, does not automatically cover damage caused by an unsuitable substrate, moisture, structural movement, inadequate preparation by others, misuse, impact, third-party work or failure to follow aftercare instructions.

This clause does not exclude liability for defects or remedies that cannot lawfully be excluded.

Customers should notify NF Epoxy promptly if they identify a suspected defect, allowing a reasonable opportunity for inspection and assessment.

No repairs or remedial work should be arranged with another contractor at NF Epoxy's expense without prior written agreement, except where otherwise required by law.

3.9 Site Access and Customer Responsibilities

The customer must provide safe access to the work area, electricity and any other facilities agreed in advance.

The customer is responsible for securing pets, protecting adjacent areas and removing valuables and fragile items from the work zone.

Epoxy application may involve odours, equipment noise and temporary restrictions on access. The customer must make appropriate arrangements for occupants and other users of the property.

Completion dates may be affected by weather, temperature, humidity, curing times, supplier delays or unforeseen site conditions. NF Epoxy will communicate material delays as soon as reasonably possible.

4. EPOXY WORKSHOP VOUCHERS

4.1 Voucher Validity

NF Epoxy workshop vouchers are valid for 12 months from the date of purchase, unless a different validity period is clearly stated on the voucher.

The expiry date must be indicated on the voucher or in the purchase confirmation.

Customers are encouraged to book well in advance of the expiry date.

Booking is subject to available workshop dates, capacity and the type of workshop covered by the voucher.

A voucher does not guarantee a place on a particular date until the booking has been confirmed.

4.2 Voucher Use

Vouchers may only be redeemed for the workshop, value or services specified on the voucher.

A voucher may not be exchanged for cash unless required by applicable law or agreed by NF Epoxy in writing.

If a voucher covers a fixed monetary value, any additional amount payable must be settled before the booking is confirmed.

If the selected workshop costs less than the voucher value, the remaining balance will be handled according to the terms stated on the voucher and applicable law.

Vouchers may not be used for epoxy products, flooring or countertop applications unless expressly stated.

4.3 Lost, Damaged or Unauthorised Vouchers

Customers should keep vouchers and proof of purchase safe.

NF Epoxy may request proof of purchase or the original voucher details before accepting a redemption.

A voucher may not be redeemed more than once.

NF Epoxy reserves the right to investigate suspected fraudulent, altered, duplicated or unauthorised vouchers.

4.4 Voucher Bookings and Cancellations

The voucher holder must contact NF Epoxy to arrange a workshop date before attending.

The voucher holder must provide the voucher number or other proof of entitlement when booking.

Rescheduling is subject to availability and the applicable workshop cancellation terms.

Failure to attend a confirmed booking may result in the voucher being treated as used where this is permitted by law and was clearly communicated at booking.

If NF Epoxy cancels a confirmed workshop, the holder will be offered an appropriate alternative booking or other suitable remedy.

Expired vouchers will not automatically be extended. Any extension is at NF Epoxy's discretion, subject to applicable law.

4.5 Gift Vouchers

A person purchasing a voucher as a gift is responsible for ensuring that the recipient receives the voucher details and understands the validity period and redemption conditions.

The recipient is subject to the same workshop rules, safety requirements and booking conditions as other participants.

5. LIABILITY AND UNFORESEEN CIRCUMSTANCES

5.1 Reasonable Care

NF Epoxy will exercise reasonable care and skill when providing its agreed services. Customers must follow all safety instructions and take reasonable care of their own belongings and completed projects.

5.2 Damage and Loss

Customers should remove valuables and fragile items from work areas before work begins. NF Epoxy must be notified promptly of any alleged damage so that the circumstances can be investigated.

Nothing in these terms excludes responsibility for negligence, breach of contract or other liability where that responsibility cannot lawfully be excluded or limited.

5.3 Events Outside Reasonable Control

Where events outside a party's reasonable control materially affect a booking or project, the affected party will notify the other party as soon as reasonably possible. The parties will make reasonable efforts to agree on an alternative arrangement. Any refund or rescheduling will be handled in accordance with the applicable agreement and law.

6. PRIVACY AND CUSTOMER INFORMATION

NF Epoxy will use customer information for legitimate business purposes, including quotations, bookings, payment confirmation, service delivery and customer communication.

Customer information will be handled in accordance with applicable privacy and data-protection requirements, including the Protection of Personal Information Act 4 of 2013 (POPIA), where applicable.

Customer information will not be used for unrelated marketing purposes without an appropriate lawful basis or consent where required.

Customers may contact NF Epoxy regarding their personal information or communication preferences.

7. ACCEPTANCE OF TERMS AND CONDITIONS

By confirming a booking, making payment, purchasing a voucher or accepting a quotation, the customer acknowledges that they have had an opportunity to read and understand these Terms and Conditions.

The terms applicable to a particular workshop, voucher or project must also be read together with the relevant advertisement, quotation, invoice and written booking confirmation.

Where a specific written agreement differs from these general terms, the specific agreement will apply to the extent of the difference, provided it is lawful.

NF Epoxy reserves the right to update these Terms and Conditions when reasonably necessary. Changes will not retrospectively remove rights or alter confirmed contractual arrangements where this is not legally permitted.
